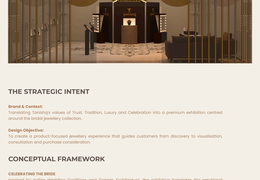
TANISHQ EXCLUSIVE EXHIBITION

CELEBRATING THE BRIDE — A JOURNEY THROUGH TRADITION

Project Type: Premium Jewellery Exhibition & Spatial Experience
Software: 3ds Max + V-Ray + AutoCAD + Photoshop + Illustrator



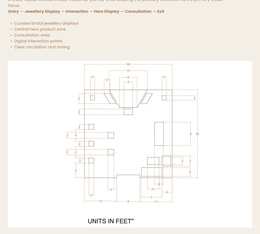
THE STRATEGIC INTENT

Brand & Context
Translating Tanishq's values of Trust, Tradition, Luxury and Celebration into a premium exhibition centred around the bridal jewellery collection.

Design Objective
To create a product-focused jewellery experience that guides customers from discovery to visualisation, consultation and purchase consideration.

CONCEPTUAL FRAMEWORK

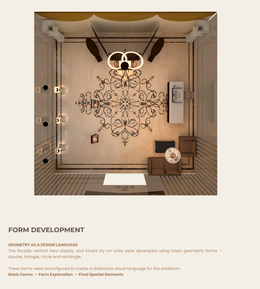
CELEBRATING THE BRIDE
Inspired by Indian Wedding Traditions and Temple Architecture, the exhibition translates the emotional journey of a bride into a structured spatial experience.
Discover → Explore → Visualise → Consult → Purchase

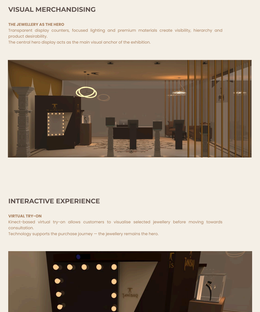


SPATIAL STRATEGY

PRODUCT-FIRST EXPERIENCE
A linear layout creates a clear customer journey while keeping the jewellery collection as the primary visual focus.
Entry → Jewellery Display → Interaction → Hero Display → Consultation → Exit

- Curated tanishq jewellery displays
- Central hero product zone
- Consultation area
- Digital interaction points
- Clear circulation and zoning





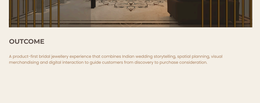
FORM DEVELOPMENT

GEOMETRY AS A DESIGN LANGUAGE
The facade, central hero display and Kinect try-on units were developed using basic geometric forms — square, triangle, circle and rectangle.

These forms were reconfigured to create a distinctive visual language for the exhibition.
Basic Forms → Form Exploration → Final Spatial Elements

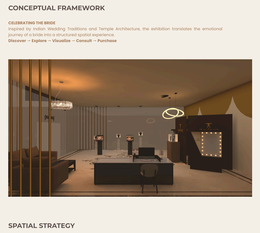
VISUAL MERCHANDISING

THE JEWELLERY AS THE HERO
Transparent display counters, focused lighting and premium materials create visibility, hierarchy and product desirability.
The central hero display acts as the main visual anchor of the exhibition.



INTERACTIVE EXPERIENCE

VIRTUAL TRY-ON
Kinect-based virtual try-on allows customers to visualise selected jewellery before moving towards consultation.
Technology supports the purchase journey — the jewellery remains the hero.



MATERIAL & LIGHTING LANGUAGE

- Forms: Square + Triangle + Circle + Rectangle
- Materials: Glass + Gold Acrylic + MDF/Surboard + Velvet/Suede + Metal
- Lighting: Warm White + Track Lights + Spotlights + LED Ring

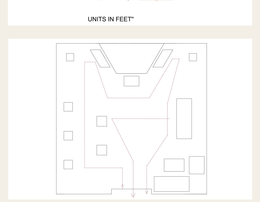
A refined material and lighting palette combines premium detailing with Indian cultural references.

ESTIMATED PROJECT COST

Item Category		Total Cost (₹)
Structure & Base		₹2,69,000
Entrance		₹96,000
Display & Features		₹56,000
Hero Section		₹51,000
Virtual Try-On		₹66,000
Furniture & Reception		₹2,82,785
Decor		₹35,000
Lighting		₹76,500
Miscellaneous		₹1,45,000
GRAND TOTAL	(Excluding GST & Design Fees)	₹5,76,285

TECHNICAL EXECUTION

Model Size: 30 × 30 × 30 cm
Actual area: 30 ft × 30 ft
Scale: 1:10
Estimated Cost: ₹5.76 Lakhs
Deliverables: Spatial Planning + 3D Visualisation + Physical Model + Material & Lighting Planning



OUTCOME

A product-first bridal jewellery experience that combines Indian wedding storytelling, spatial planning, visual merchandising and digital interaction to guide customers from discovery to purchase consideration.
