Language

- English
- Hindi

Objective

NIFT-trained designer with a focus on Visual Merchandising and Spatial Design. I use 3D visualization and proper space planning to design stores that look appealing and give customers a better brand experience.

Academic Projects

- **Retail Wall & Planogram Development:** Designed detailed retail wall elevations to optimize product visibility and zoning.
- **Victorian Era Window Display Concept:** Created a themed 3D window display using spatial planning and styling.
- **Puma Store Planning:** Designed technical floor plans and 3D renders store to optimize customer flow and product visibility.

STRENGTHS

- **Retail Planning & VM:** Store planning, spatial zoning, and visual hierarchy for lifestyle retail.
- **Customer Experience:** Journey mapping, window displays, and impactful wall elevations.
- **Spatial Design:** Leveraging technical skills to create virtual store prototypes, translating UX research into immersive exhibitions.
- .**Execution:** Concept-to-handover turnkey workflows with a focus on materials and finishes.
